PAF	RT I. II	NTRODUCTION			
1	Socia	Network Analysis: An Introduction	3		
		Introduction	3		
	1.2	Misconceptions and Differences	6		
		Basic Terms and Concepts	8		
		Assumptions	14		
		Social Networks, Human Agency, and Culture	29		
		Summary and Conclusion	31		
2	Strate	egic Options for Disrupting Dark Networks	32		
		Introduction	32		
	2.2	Strategic Options for Disrupting Dark Networks	33		
	2.3	Crafting Strategies with Social Network Analysis	38		
	2.4	Summary and Conclusion	44		
PAF	RT II.	SOCIAL NETWORK ANALYSIS: TECHNIQUES			
3	Getti	ng Started with UCINET, NetDraw, Pajek, and ORA	49		
		Introduction	49		
	3.2	UCINET	49		
	3.3	NetDraw	55		
	3.4	Pajek	62		
	3.5	ORA (Organizational Risk Analyzer)	69		
		Summary and Conclusion	74		
4	Gathe	ering, Recording, and Manipulating Social Networks	76		
	4.1	Introduction	76		

X	(Contents	
	4.2	Boundary Specification	77
	4.3		80
	4.4		82
	4.5	Collecting Social Network Data	87
		Recording Social Network Data	91
		Deriving One-Mode Networks from Two-Mode	
		Networks	102
	4.8	Combining, Aggregating, and Parsing Networks	107
	4.9	Extracting and Simplifying Networks	122
	4.10	Summary and Conclusion	132
PAI	RT III.	SOCIAL NETWORK ANALYSIS: METRICS	
5	Netw	ork Topography	135
		Introduction	135
		Some Basic Topographical Metrics	137
		The Provincial-Cosmopolitan Dimension	138
		The Hierarchical-Heterarchical Dimension	141
		Estimating Network Topographical Metrics	143
	5.6	Summary and Conclusion	166
6	Cohe	sion and Clustering	170
		Introduction	170
	6.2	Components	171
		Cores	182
	6.4	Factions	187
	6.5	Newman Groups	194
		Summary and Conclusion	204
7	Cent	rality, Power, and Prestige	206
		Introduction	206
		Centrality and Power	211
	7.3	Centrality and Prestige	240
	7.4	Summary and Conclusion	251
8	Brok	ers, Bridges, and Structural Holes	253
	8.1	Introduction	253
	8.2	Structural Holes	254
	8.3	Bridges, Bi-Component, and Cutpoints	264
	8.4	Key Players	271
	8.5	Affiliations and Brokerage	277
	8.6	Bridges and Network Flow	282
	8.7	Summary and Conclusion	284
9		ons, Roles, and Blockmodels	286
	9.1	Introduction	286

287

9.2 Structural Equivalence

	Contents		
	9.3	Automorphic Equivalence	289
	9.4	Regular Equivalence	292
		Blockmodeling in UCINET, Pajek, and ORA	295
	9.6		315
PAF	RT IV.	SOCIAL NETWORK ANALYSIS: ADVANCES	
10	Dyna	mic Analyses of Dark Networks	319
	10.1	Introduction	319
	10.2	The Longitudinal Analysis of Dark Networks	319
	10.3	Fusing Geospatial and Social Network Data	333
	10.4	Summary and Conclusion	341
11	Statistical Models for Dark Networks		343
	11.1	Introduction	343
	11.2	Statistical Models for Social Network Data	348
	11.3	Statistical Models in UCINET and ORA	349
	11.4	Summary and Conclusion	360
PAF	RT V. (CONCLUSION	
12	The F	Promise and Limits of Social Network Analysis	365
	12.1	Introduction	365
	12.2	The Promise and Limits of Social Network Analysis	366
		Disrupting Dark Networks Justly	367
	12.4	Summary and Conclusion	383
	Appe	ndix 1: The Noordin Top Terrorist Network	385
	Appe	ndix 2: Glossary of Terms	397
